

OA LodgeMaster Lodge Client 4.3.1 Released

OA LodgeMaster Users,

The OA LodgeMaster Team is excited to announce the immediate release of version 4.3.1! We fixed 27 bugs and made 9 improvements. In version 4.3.1 we focused on making the user experience better. We made many behind the scenes improvements to email, fixed several bugs within finance, and made improvements to user account management.

We've added an improved grid to the email module display email statistics. Lodge Admins can now view detailed delivery information including unique opens, click rates, and search by delivered address for sent emails. Other enhancements include new alerts when a message is approved/rejected, improved email scheduling, and sent email grid sorting. We've also fixed an issue that prevented Lodge Admins from reactivating user accounts.

These are just a few of the highlights from our release. A full list of improvements can be found by clicking the button below.

Yours in Brotherhood,

The OA LodgeMaster Team
