

OA LodgeMaster Lodge Client 4.2.1

Released 02/20/2019

OA LodgeMaster Users,

The OA LodgeMaster Team is excited to announce the immediate release of version 4.2.1! We fixed 3 bugs made 7 improvements and added 2 new features! A full list of improvements and bug fixes can be found by clicking the button below, but here are some highlights:

- Included in the 4.2.1 release is the 2019 Charter and JTE module updates, a new 'finish line' goals report, and a new member activation report. The new finish line report which is available in the Charter & JTE module under the Reports menu and allows you to see your progress towards each of the JTE goals. The new member activation report can be run from the Static Reports menu in the Member Manager. We've also added a activation section to the Unit of Excellence Award report.
- We've add new [unit designation](#) functionality throughout the program. Matching functionality added by the BSA, we've added the ability to add a designation to the end of the unit number for troops and packs that share the same number.
- We've added the ability to see email send history, including click counts for each of the links you include in an email and which members bounced.
- We've also added the ability to bulk archive all candidates that never completed their ordeal, ensuring you keep those candidates for counts are history, but also clearing them from lists and member search fields.

Go to <https://lodgemaster.oa-bsa.org/> to access the online system, and if needed, download the offline version. As always, if you have questions or problems, please submit a request online (<http://docs.oa-bsa.org/display/OALMLC>).

Yours in Brotherhood,

The OA LodgeMaster Team,

Chadd, Mike, Rob, and Mike
